- It is incumbent upon the authorizing ALS Agency to ensure that remediation of the provider has occurred prior to reauthorizing the provider to schedule a retest.
- Candidates having failed two (2) or less module during the initial exam must retest the failed modules. A candidate having failed three (3) or more modules constitutes an exam failure and the candidates must retest the entire credentialing exam. The candidate is not eligible to take a second exam for a minimum of ten (10) business days from the date of the initial exam. The retest cannot be scheduled until the HVREMSCO is in receipt of the examination retest form.
- Candidates who have failed any retest are not eligible for a new examination for thirty (30) Days from the date of their failed retest. Failure of any re-test will deem the Provider ineligible for a new certification examination until the authorizing agency submits detailed documentation of remediation, and a new letter of authorization.
